**Age groups listed above represent Fall 2012 teams. If there is no team in your age group, you may play up one year.**

Jersey Shore Boca marked its 30-year anniversary in 2008 and we are stronger than ever. We are one of the oldest and most respected soccer clubs on the East Coast. The Boca story is filled with many accomplishments and victories both on and off the pitch. Boca members know they are part of a club with rich traditions and long history. Our Men's and Women's programs have provided a source of experienced coaching and role models for the younger players. The adult players take to the field wearing the same "strip" as the youth. This display of the same colors leads to a great sense of camaraderie among the players of all ages. That bond of loyalty often goes beyond the playing field. Young players can reach goals they set for themselves by emulating the adult players, not just on the soccer field, but also in their choice of careers. Boca youth are part of a program they can participate in for life, while keeping active in the sport they love so much.
